**FOR IMMEDIATE RELEASE**

**TANNER'S BAR AND GRILL TO OPEN IN GREENWAY STATION**

Middleton, Wisconsin (January 21, 2011) - Engineered Construction recently began construction on Greenway Station's newest tenant, Tanner's Bar and Grill. The nearly 6,100 sf Tanner's will be located at 1611 Deming Way, fronting the entrance to Greenway Station in Middleton, Wisconsin. Construction is scheduled to be completed by the middle of February. General Manager Danny Jacobs mentioned, "We couldn't be more excited to bring our world-class food and atmosphere to Madison and Dane County. We expect to be open a few weeks prior to the NCAA Men's Basketball Tournament and I can't wait to give all the Badger fans the Tanner's experience while enjoying Wisconsin's deep run in the tournament."

Tanner's Bar and Grill, founded in 1985, is a full-service restaurant and bar serving fresh food and offering a combination of local and national beers across 16 taps and countless bottles. When asked about the decision to open in Madison, Jacobs said, "Our group has been perfecting the Tanner's experience at our Omaha (Nebraska) location and we knew we had something special that we had to share. Nebraska fans love their Huskers almost as much as they love their Tanner's, so with the advent of Nebraska joining the Big 10 conference we took a hard look at all Big 10 towns. Choosing Madison as our next location was a no-brainer. I look forward to our staff and loyal patrons developing a friendly rivalry with our new Big 10 foes in Nebraska." With well over 20 TVs, including three 10-ft projection screens, you will be able to catch your favorite team's game from any seat in the house as Tanner's carries most major sports TV packages. A dedicated "Badger Room" will be available for groups and a spacious outdoor patio will be a fixture for locals enjoying spring and summer nights. For more information, feel free to contact Mr. Jacobs at (214) 886-4742.
